Not Found in Big Box Stores!

**Direct Replacement to Competitors'
3-Bolt Mount System**

A Smarter Way To Grind

FASTER

Our permanent magnet DC Motors reach full, and a higher, torque more quickly than the leading competitor's brand.

GREENER

Our disposers consume less energy to grind the same food waste when compared to the leading competitor's disposer.

FINER

Our high-speed permanent magnet motors provide unparalleled jam-free performance. No jamming key and no antiquated auto-reverse are needed.

SEPTIC SAFE

All it takes is one pass of the high torque motor and food is ground finely, making it septic-ready, with no additional chemicals needed.

High Torque Means Virtually Jam-Free Versatility!

Mountain Plumbing's STEALTH disposers have been designed to handle a larger variety of food scraps while being more than 40% smaller in size than the competition.
