DoubleFlex

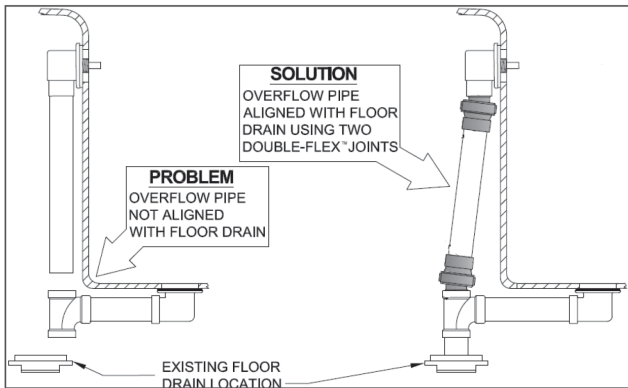

Bath waste installations just became faster and easier. **DoubleFlex** is designed to handle misalignment problems using patented swivel joints at the overflow head and at the sanitary tee.

- 1-1/2" Female x 1-1/2" Male Schedule 40
- Approved for all Drain, Waste, and Vent applications
- Comes Packaged in Clamshell Packaging
- All BWO40S Schedule 40 Cable Drains include 2 DoubleFlex Fittings*

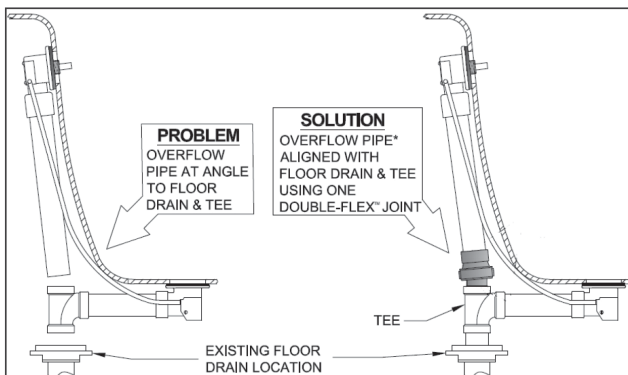

*One DoubleFlex fitting is pre-glued to the overflow head.

Available in PVC and ABS.

H2O Delivery - Mechanical

Tub Docking Station - Freestanding Tub Drain Rough-In with Trim - Complete Kit

BDWOF-DS

The Mountain Plumbing Docking Station is the ultimate solution to quickly and easily install a freestanding bathtub.

- EZ-Click™ tub drain with brass tailpiece
- ABS and PVC adapter kits included
- Asymmetrical metal deck flange provides easier installation in tight spaces
- Removable drain stopper allows for easier cleaning
- For freestanding tubs with integrated overflow and 2" drain hole

Docking Station Benefits:

- Easier to install when compared to similar products from our competitors.
- Does not require the tub to be placed on its side (which prevents the possibility of the tub being scratched).
- Product includes the drain; competitors sell this separately.
- Drain is removable after installation without removing the entire tub.
- Removable drain plug with hair catcher for easier cleaning.
- Plug top is removable to allow for easy access to snake the drain line.
- Tub can be water tested and then easily removed to store in a safe place to avoid damage.

How Does It Work?

Step 1: Install Deck Flange

Step 2: Measure distance from bottom of the tub to the floor; cut tail piece to length

Step 3: Slide tub and align drain holes

Step 4: Using the long tool, pull the tail piece to create seal underneath the tub

Step 5: Thread the trim through the drain hole and tighten with smaller tool

Step 6: Install the drain stopper

Tub Docking Station – Spacer

BDWOF-DS/SPACER

\$ 4

- This spacer is required for installation on tubs between 3/4" to 1-1/4" thick at the drain hole
- Not needed for tubs thicker than 1-1/4"
- Buna-N rubber seals against underside of tub

Tub Docking Station - Rough Kit

Only Compatible with the BDWOF-DSTRIM

BDWOF-DSROUGH

\$ 130

- Floor Rough
- PVC and ABS Adaptors

Installing a freestanding tub the traditional way isn't super complicated, but it is cumbersome and a lot can go wrong.

The Old Way

Docking Station Way

Must **tilt tub on side and lift** to connect tailpiece - **increases risk of scratches and cracks**

No tilting or lifting required to attach tailpiece before placing tub - **decreases risk of scratches and cracks**

High damage risk when **lifting and lowering** tub to install

Low damage risk because **no lifting or lowering** required for tub installation

Lifting and lowering installation **requires more labor** and **adds cost** to project

Sliding tub into place to install **requires less labor** and **helps control cost** of project

Impossible to snake **without removing tub** completely to gain access

Removable clicker drain allows easy access to **snake drain and clear clogs**

In stock and ready to ship as an innovative solution to quickly and easily install freestanding bathtubs whenever you make a purchase!
